

Benefits of Advertising your Property on our Site

The difficultest part of any holiday rental is to manage and secure a booking for your property. Most paid holiday rental sites are expensive and only at best give you an availability calendar so it is down to you to take calls or emails but if you are not there to do this then it is quite easy to lose the booking as most of todays renters are hard pressed for time and many like booking at the last minute. You could give it to an agent to manage, but that will cost you a setup fee and a commission of between 15% and 40%on each booking, which does not leave you with much in the pocket. With My Perfect Holiday Rental things are different. We have designed our site to meet the demands of todays travellers and renters. Instead of just an availability calendar you have a fully fledged booking system. You advertise with us and interested clients can book over the internet and you receive your deposit immediately.

If you are interested in joining the next generation holiday rental internet site then please visit our advertisers page for more information.

Advantages of Our Site

- Online booking system - enables you to sell bookings/reservations at low cost via the Internet.
- Instant bookings - Guests receive instant confirmation of their reservation, without having to wait for you to answer their availability and pricing emails. This stops guests from shopping around for other accommodation.
- Booking form - Calculates room/property availability and pricing according to the requirements of the customer, right there and then.
- Multiple tariffs - A flexible room tariff system allows you to configure your tariffs to work just how you want them.
- Affordable - amongst the lowest subscription rates in the industry for the type of systems offered to clients.
- Payment gateways - Can be setup to receive payments via paypal, worldpay and other payment systems
- No third party interference - You do not have to wait for your money!
